

University of Minnesota Duluth - Outdoor Program
American Canoe Association
Isle Royale - Coastal Kayak Trip Leader Skills
Assessment & Basic Coastal Kayaking
Instructor Certification Workshop (IDW & ICE)

This Trip Leader Skills Assessment is designed to train you to lead day trips and the Basic Level Instructor Development Workshop (IDW) and an Instructor Certification Examination (ICE) are designed to certify instructors to teach basic level American Canoe Association coastal kayaking courses.

HERE'S WHAT TO EXPECT:

This is a fun, yet challenging sequence of courses. Each day will be a blend of teaching, paddling, exploring topics, and working to build skills and knowledge. Days will be long but rewarding. For a full line-up, see the schedule at the end of this document.

WHEN:

- Trip Leader Skills Assessment - (Daytime) **June 26-29, 2008**
- Instructor Development Workshop - (Day & Eve.) **June 26-29, 2008**
- Instructor Certification Examination - (Day & Eve.) **June 30-July 1, 2008**

WHERE:

Meet at the Rock Harbor Resort on the Northeastern end of Isle Royale on Thursday June 26th at 7:00pm. We will set up at the campsite. The June 26th ferry from Copper Harbor, MI arrives at 11:00am EDT. The June 25th ferry from Grand Portage, MN arrives at 3:30pm CDT. (see ferry schedule at the end of this document)

WHAT TO BRING:

Instructor candidates must bring base camping and cooking equipment, food, a notebook and writing instruments. A sea kayak with bulkheads (or secured flotation), PFD, sprayskirt, paddle, wetsuit or dry suit, paddling jacket, two filled water bottles, towel, warm clothing, wide-brimmed hat, sunscreen, eye glasses strap and sunglasses. Personal safety equipment such as: signaling devices, a 12 foot loop stirrup, paddle float, bilge pump, appropriate swimwear & footwear (i.e. booties), helmet, compass, warm hat, tow bag/system. We can provide some paddling accessories upon request. You must bring your own kayak to Isle Royale.

COST - UMD Students/Others

- Trip Leader Skills Assessment (TLSA) \$275/\$310
- TLSA & Instructor Development Workshop \$400/ \$445
- Instructor Certification Examination \$225/ \$285

To participate in these workshops, you must be a current ACA member, which is built into the workshop fee. Upon completion of a certification you must register with the Safety Education and Instruction Council (SEIC) for an additional \$25 all payable to the "ACA".

GOAL:

- Develop the skills and knowledge to successfully complete the trip leader assessment and instructor certification process to teach ACA courses.

The Real Classroom is Outside...Get Into It!

Coastal Kayak Trip-Leading Workshop & Skills Assessment (TLSA)

This course is intended to provide the minimum skills and training necessary for an adult leader possessing basic paddling skills (see prerequisite below) to lead a trip for participants with beginner level paddling skills, in gentle conditions, with apparent wind not exceeding 10 kts, waves not exceeding 1 foot and currents to 2 kts. The emphasis of this course is trip leading, safety education and rescue, not paddling instruction. The content is relevant for clubs, camps, scouts and other entities providing trips. This is an Assessment Course with a written Examination, administered by a CK Instructor Trainer. Those desiring certification to teach kayak paddling should get ACA Instructor Certifications.

General skills prerequisite for all TLSA participants: There will be no time allotted during this course for basic paddling skills development. Participants should have ACA "Level 2" skills before entering this course. Please see the "Coastal Kayak Level 2 Award Assessment" attached to the end of this document for more specific details.

The Basic Coastal Kayak Instructor Certification

For Instructors who will teach on water up with modest tidal current in wind conditions up to 10 Knots, seas to 1 foot within 1/2 mile of shore. Instructors are authorized to teach in gentle ocean environments in limited wind conditions and to teach students fundamental kayak skills including identifying hazards and self-rescues in tidal water. Basic CK Instructors may teach: Quickstart Your Kayak, Intro to Kayak, Basic Strokes and Rescues

Participation and successful completion in the IDW and ICE is necessary to receive an ACA Basic Coastal Kayak Instructor Certification. These workshops are designed to provide in-depth teaching experiences related to classroom instruction, dry land instruction, and on-water instruction of coastal kayaking. Please spend time learning about the ACA and familiarizing yourself with the curriculum at the web site <http://www.acanet.org>.

Instructor Development Workshop (IDW) Overview

This workshop is designed to "teach you how to teach coastal kayaking". Each candidate will be assigned teaching topics and instruction methods. The focus of the workshop is on modeling effective instruction of the skills, knowledge, and techniques necessary for successful completion of the Instructor Certification Examination. Each candidate will be critiqued on their presentation skills as well as the knowledge and skills necessary for certification. There will be an open water leadership exercise in which each Instructor Candidates will take turns in a leadership role. At the end of the workshop, each individual will be advised as to their readiness for entry into the Instructor Certification Examination.

Instructor Certification Examination (ICE) Overview

Each Instructor Candidate is evaluated throughout the certification process. Candidates will be evaluated in these areas:

1. **Safety Awareness and Technical Rescue Skills-** Due to the fact that water safety is one of the ACA's primary goals this section is weighted very heavily and candidates must demonstrate 100% competency all of the time.
2. **Technical Knowledge** - General knowledge of kayaking, the ACA, and coastal environments.
3. **Paddling Skills** - Technical proficiency, including personal paddling skills and comfort in a variety of water conditions. Showing 70% of the perfect technique demonstration (as modeled by the IT's) is necessary. Proper stroke mechanics must be used in all cases. The 30% variation allows for minor differences in the range of a stroke, the shape of a maneuvering demonstration and the overall visual impression that is made when different body types demonstrate a skill.
4. **Teaching Ability** - Good physical modeling, the ability to break down maneuvers and skills into their components, clear, concise, organized and thorough presentations aimed at beginner to intermediate paddlers, people skills and general professionalism. Each Instructor Candidate will be assigned mini dry-land and on-water topics to present to the group. In addition, candidates will present 8 to 15-minute lessons to the class during the IDW.

Teaching Assignments

Each Instructor Candidate will be assigned several teaching topics on the first day of the IDW and prior to the ICE. These will include classroom teaching topics, dry land topics, and on-water topics. A "Topic Outline" booklet will be given to each Instructor Candidate for reference. Remember that all of the instruction done by each Candidate should be geared toward the beginning paddler. After presentations, Candidates will be evaluated on the content (information presented) and process (teaching technique, style, etc) of the lesson. The feedback is designed to facilitate your growth as an instructor.

General Requirements for Certification:

1. Be at least 18 years old.
2. Successfully complete an Instructor Development Workshop
3. Be an A.C.A. member, including the Safety, Education, & Instruction Committee (S.E.I.C)
4. Demonstrate a general knowledge of Canoesport and the A.C.A.

Maintenance Requirements:

1. Teach at least two courses that meet A.C.A. standards within the four-year certification period and report the results to the National Office.
2. Attend (within the four-year certification period) at least one of the following: Instructor Methods Workshop, Instructor Development Workshop, Instructor Certification Workshop (assisting in either of the last two is OK).
3. Maintain A.C.A. membership and SEIC. registration annually.

Proficiency Requirements for Basic Level Instructor:

Fundamentally, we expect that paddlers should become experienced sea kayakers in mild to moderate conditions, before presenting themselves for evaluation as instructor candidates at the Basic Level.

1. Demonstrate the ability to teach and model the basic paddle strokes; forward, reverse, forward and reverse sweeps, draw and sculling draw, high and low braces.
2. Demonstrate the ability to teach and model basic rescue techniques; T-rescue, Side-by-Side, Rafted-T, and Paddle Float. Also have working knowledge of other rescues; Scramble, Reentry and Roll with Paddle Float, Reentry and Roll, All-In, Scoop, and Sling.
3. Demonstrate ability to perform a reliable kayak roll.
4. Demonstrate knowledge of, and ability to teach, the following:
 - a. Safety issues and hazards of coastal kayaking
 - b. Basic chart reading and use
 - c. Weather conditions important to the kayaker
 - d. Hypothermia; prevention and treatment
 - e. Signaling devices and safety equipment
 - f. Boat traffic, rules of the road
 - g. Kayak design and equipment
 - h. Kayak towing technique
5. Demonstrate ability to paddle comfortably with grace and style, and to perform rescues efficiently, in calm water.
6. Demonstrate leadership and group management skills, experience and judgment necessary to be a safe, effective instructor.

Preparation, Resources and Feedback:

Participation in the ICE does not guarantee certification, however, an Instructor Candidate has up to 4 years to successfully complete the certification requirements after participating in the IDW and ICE. Instructor candidate must do some paddling prior to the workshop and arrive well rested and physically prepared. The Instructor Trainers recommend that Instructor Candidates attend an ACA Basic Strokes and Essentials of Kayak Touring prior to the IDW. If attending an ACA course is not feasible, then Instructor Candidates must have knowledge of the content within the coastal kayaking courses.

Please visit the ACA website at http://www.americancanoe.org/instruction/kayak_instruction2.lasso to learn more about the coastal kayak curriculum.

Quality stroke and rescue techniques are demonstrated in the video *Performance Sea Kayaking*. Printed resources that are recommended but not required include: Ragged Mountain Press: The Complete Sea

Kayaker's Handbook (2002) Shelley Johnson, Wilderness Press: Sea kayaking Safety & Rescue, (2001) John Lull, The Globe Pequot Press: Sea Kayak Rescue (2001) Roger Schumann & Jan Shriner, Fundamentals of Kayak Navigation (1999) David Burch, Sea Kayaker's: Deep Trouble (1997) Ragged Mountain Press.

Island Living, Group Camping and Time Management:

Instructor candidates must be prepared to camp in tents and cook outdoors. Dress appropriately to remain comfortable during cold evening temperatures or when we experience wind and/or rain. An indoor classroom facility will be available for our group and will be used for working on lesson plans, studying video, visiting with others and resting up in a heated space for the next day.

We have obtained permits for group camping from June 26th - July 1st, 2008. If you choose to arrive early or stay later on Isle Royale you must obtain your own park permits.

A complete schedule for the TLSA and Basic Level IDW/ICE is enclosed. This schedule will guide our efforts and it is subject to change when needed. We realize that this letter goes over a great deal of information and that the overall workshop will feel intense at times. Please help us meet your needs by contacting us if you have any questions. We look forward to paddling with you!

ACA COASTAL KAYAK TRIP LEADER SKILLS ASSESSMENT & BASIC COASTAL KAYAKING INSTRUCTOR CERTIFICATION WORKSHOPS

TLSA & IDW June 26-29 and ICE June 30-July 1, 2008 on Isle Royale

TRIP LEADER SKILLS ASSESSMENT & INSTRUCTOR DEVELOPMENT WORKSHOP

(Night 1 Welcome/Orientation) **Thursday June 26, 2008 at 7:00pm** we will meet at the Rock Harbor Resort on the Northeastern end of Isle Royale. Consider your departure time from the island carefully to determine the best mainland departure location. Instructor Trainers will be departing from Copper Harbor, MI.

- Ranger welcome and orientation to Isle Royale
- Overview of classroom and campsite facilities at Rock Harbor, Daisy Farm and Three Mile
- Logistics and equipment discussion

(Day 1) **Friday June 27, 2008** at Rock Harbor Resort Classroom in the morning and then split the group to camp at Three Mile or Tookers or Caribou in evening.

8:00am Wake up, get moving and eat breakfast

9:00am **WORKSHOP BEGINS**

- Welcome and workshop introductions and expectations
- Review workshop schedule and locations of activities explained
- Resources and Topic Outline explained.
- Certification requirements reviewed technical knowledge, teaching and group management skills.
- Overview of the ACA.
- Final paper work turned in: balance due, liability waivers, health forms and ACA dues.
- TLSA - Power Point summary of coastal kayak safety awareness, leadership and technical knowledge
- Teaching topics assigned for 1:30pm presentations

11:00am **INSTRUCTOR TRAINER PRESENTATIONS**

(TLSA Only Participants do not have to attend this segment but have to return by 1:30pm)

- Feedback and Evaluation Techniques _____
- Instructor candidate skills - a self rating _____
- Lesson Plans _____
 - writing them _____
 - their use in presenting a lesson _____
- Learning Theory & Methods of Instruction used in Paddling _____
- Homework: text reading, videos, lesson plan writing _____

12:30pm Lunch

1:30pm **TLSA & INSTRUCTOR CANDIDATE PRESENTATIONS - (Dry Land Orientation)**

These should be from 5 to 10 minute basic presentations directed toward ***beginner paddlers*** with a focus on getting the group involved with hands-on activities

- Transporting boats on vehicles _____
- Boat carrying (portaging) _____
- Kayak Nomenclature _____
- Boat design, construction materials & proper outfitting _____
- Paddles: parts-design materials _____
- Paddle grip & overview of feathered/un-feathered blades _____
- Primary safety equipment: pump, float, stirrup, PFD _____
- Warm up and stretching _____
- Foot brace adjustment & spray skirt attachment _____
- Launching & landings for individuals _____
 * Brief critique of each presentation above on content & process

3:00pm **INSTRUCTOR TRAINER PRESENTATIONS**

- Concepts of Paddling _____
 - physics of boat movement, use of body to control boat _____
 - use of body to control paddle _____
- Wet exit & emptying the boat _____
- Hands paddling, Hip snap development & bow rescues _____
- Open Practice of "Skills Routine" _____

5:30pm Critique of Day

7:00-9:00pm EVENING SESSION: Prepare team teaching lesson plans - classroom and resource books available

(Day 2) **Saturday June 28, 2008** at Three Mile Camp in the morning, Daisy Farm Camp in the evening.

8:00am Wake up, get moving and eat breakfast

9:00am INSTRUCTOR TRAINER PRESENTATION

- Navigation- what to teach beginners and in-depth information for instructors to consider

10:30am INSTRUCTOR TRAINER PRESENTATIONS

Strokes

- holding the paddle, relaxed, neutral grip
- sweeps
- forward strokes
- back, reverse, stopping stroke
- draw's - in/out water recovery, sculling
- slide slip (using hanging or stationary draw)
- stern rudder

Braces

- low
- high
- sculling for support

Static brace turns

Additional Strokes as time allows (i.e. reverse sweep through a full 180⁰ arc, using a vertical shaft and an in water recovery along side hull to get to the next reverse sweep catch position)

12:00pm Lunch

1:00pm VIDEO TAPE INSTRUCTOR CANDIDATES DOING "SKILLS ROUTINE":
STROKES, BRACES AND ROLLING

2:30 am INSTRUCTOR CANDIDATE SOLO TEACHING PRESENTATIONS as we move from Three Mile Camp to Daisy Farm (3-4 mile paddle). Presentations no longer than 10 minutes - geared toward our group with TLSA paddlers serving as student audience.

1. Trip planning and organization
2. Loading and trimming of sea kayaks
3. Wind and its effect on kayakers
4. Review of on water hazards en-route & general
(air & water temp, lightning, shoals, rugged shoreline, man-made obstructions, power boat traffic, marine life)
5. Group paddling and communication
6. Group launching and landing from beaches and rocky shores
7. Paddling in waves and introductory surfing techniques
8. How fog and rain affect sea kayakers
9. Boat design features (optional)

6:30pm Critique of day at Daisy Farm Campsite or Mott Island Park Headquarters and eat dinner.

7:30-9:00pm EVENING SESSION: Review of skills video by self, group, and Instructor Trainers, an excellent opportunity to see yourself and get feedback from others in the group, write lesson plans, technical knowledge assessment and prepare for the next days assigned leadership roles during an open water exercise.

(Day 3) Sunday June 29, 2008 at Daisy Farm Campsite

8:00am Wake up, get moving and eat breakfast

9:00am **INSTRUCTOR CANDIDATE TEAM TEACHING PRESENTATIONS** at Daisy Farm Campsite or Mott Island Park Headquarters (dry land presentations are NO LONGER THAN 15 minutes and geared toward our group with TLISA paddlers serving as student audience.

- Group safety equipment (first aid, kayak repair, VHF radios, shelters, tow bags, spare paddle, water purification, bio breaks & sanitation) _____
- Kayak clothing- for warm and cold weather paddling _____
- Signaling devices _____
- Rules of the nautical road and paddling in traffic _____
- Cold water paddling and hypothermia _____
- Warm weather paddling and hyperthermia _____
- Brief critique of each presentation above on content & process _____

12:00pm Lunch

1:00pm **INSTRUCTOR TRAINER PRESENTATIONS** at Mott Island Park Headquarters Classroom

- Power Point summary of coastal kayak rescue scenarios and skills
- Rescues
 - Bow/stern/paddle shaft rescue to avoid wet exit _____
 - Re-enter and pump _____
 - Scoop rescue _____
 - T rescue _____
 - Paddle float (stern entry) & with stirrup _____
 - Paddle float re-enter and roll _____
 - All in rescue _____
 - K-2 rescues _____
 - Towing _____

3:00pm TLISA and Instructor Candidates are assigned a leadership role in an open-water setting. Typical leadership roles include group management while navigating from one spot to another, directing rescue practice, responding to unexpected scenarios, and dealing with short crossings where boat traffic is present.

5:30pm Dinner at Mott Island Park Headquarters or Daisy Farm Campsite and complete TLISA multiple choice written exam. ICE participants are assigned topics for June 30-July1.

7:00pm Wrap up for TLISA & IDW Only Candidates:
Risk Management and Legal Liability
Administrative requirements to run ACA courses
Maintaining your TLISA rating
Workshop evaluations
Final individual conferences

9:00pm Done meeting with last candidate

SKILLS TEST ON RESCUES WILL OCCUR DURING EACH PRESENTATION

3:30pm Snack Break

4:30 Wrap up for ICE Candidates at Mott Island Park Headquarters or Rock Harbor

- Fill out workshop evaluation
- Equipment organization and return resources to their owner

FINAL MEETING WITH CANDIDATES (individual sessions)

- Provide oral evaluation
- Award certification level on an individual basis
- Review continuing education and experience requirements

6:00pm Done meeting with last candidate.

(Day 3) Wednesday July 2, 2008 First day of island departure logistics.

9:00am Out going "Ranger III" ferry to Houghton, MI

(Day 4) Thursday July 3, 2008 Second day of island departure logistics.

8:00am Out going "Voyageur" ferry to Grand Portage

2:45pm Out going "Queen IV" ferry to Copper Harbor, MI

Ferry Schedules To and From Isle Royale

Times are subject to change. Please check with the ferry providers for updated schedules.

Ranger III

906-482-0984

Times given in EDT

Departure to Isle Royale

- Leaves Houghton MI 9:00am **Tuesday** and **Friday**
- Arrives at Mott Island, Isle Royale 2:00pm
- Arrives at Rock Harbor, Isle Royale 3:00pm

Return to Houghton, MI

- Leaves Rock Harbor, Isle Royale **Wednesday** and **Saturday** 9:00am
- Arrives Houghton, MI in afternoon

Queen 4

(906) 289-4437

Times given in EDT

Departure to Isle Royale

- Leaves Copper Harbor, MI (June 2-30 **Mo,Tu,Th,Fr,Sa.**)
(July 1-14 **Mo,Tu,Th,Fr,Sa,Su**) 8:00am
- Arrives at Rock Harbor, Isle Royale 11:00am

Return to Houghton, MI

- Leaves Rock Harbor, Isle Royale (June 2-30 **Mo,Tu,Th,Fr,Sa.**)
(July 1-14 **Mo,Tu,Th,Fr,Sa,Su**) 2:45pm
- Arrives at Copper Harbor, MI 5:45pm

M.V. Voyageur II

April: (651) 653-5872 or (888)746-2305

May thru Oct: (218) 475-0024 or (218) 475-0074

Times given in CDT

Departure to Isle Royale

- Leaves Grand Portage, MN (**Mon./Wed./Sat.**) 8:00am
- Arrives at Windigo, Isle Royale 10:30am
- Arrive Rock Harbor, Isle Royale 3:30pm

Return to Grand Portage, MN

- Leave Rock Harbor, Isle Royale (**Tues./Thurs./Sun.**) 8:00am
- Arrives at Windigo, Isle Royale 12:30pm
- Arrive at Grand Portage, MN 3:30pm
